

The Royal  
Children's  
Hospital  
Foundation

10 month old Daisy is thriving thanks to the RCH

## Working together to change the future of children's health

For over 150 years, The Royal Children's Hospital (RCH) has been providing world leading care to Victoria's sickest and most vulnerable children.

Your donation takes the RCH from a good hospital to a great hospital, with more than 200 projects and initiatives made possible each year through community support.

By signing up as a workplace giver with the RCH Foundation, you can help **create a brighter future for sick children.**

You can donate as little as **\$2.50** per pay

That's less than your daily cup of coffee!

## How does Workplace Giving work?

Workplace Giving is about **small change making a big difference.**

It is a simple and effective way for you to support the RCH.

Workplace Giving allows you to support the RCH by making small, regular donations from your pre-tax salary. You're in control of how much you want to contribute, and the entire process is managed by your payroll department meaning you can just set and forget. Plus, because donations come from your pre-tax salary, you will reduce your taxable income.

You give  
**\$5.00**

You pay  
**\$3.50\***

The RCH  
receives  
**\$5.00**

If your employer matches your donation, the RCH receives **\$10.00**

\*Exact figures are dependent on the individual's ATO personal tax bracket

**Turn over to see the impact and how to start giving in four easy steps!**

# The impact of Workplace Giving

Through Workplace Giving, you can help purchase innovative new equipment and technology, support scholarships, clinical trials and allow further training for clinicians.

## \$2.50 per pay

can help the hospital provide support services like music therapy and art therapy.

## \$5 per pay

can help provide training and education so clinicians, nurses and staff can stay at the forefront of paediatric healthcare.

## \$10 per pay

can help undertake ground-breaking research to pioneer new diagnoses, treatments and cures for childhood illness.

## \$25 per pay

can help purchase the latest equipment and technology, allowing clinicians to provide world leading care for patients.

Over 700  
individuals support the RCH  
through Workplace Giving

## Follow these four simple steps and start giving!

1. Talk to your payroll or HR department to see if they have a Workplace Giving Program in place. If they do, ask them how you can get involved. If they don't have a Workplace Giving Program, ask them to set one up so you can make a difference.
2. Nominate the RCH Foundation as your preferred charity and select your pre-tax donation amount.
3. Ask your employer if they can match your contribution.
4. That's it - your generous donation comes straight to the RCH Foundation, and you can enjoy a tax free benefit each pay!
